Death Rages At Alcatraz

Explosions Shake Prison Islet As Desperadoes Fight Guards

By ROGER JOHNSON
Exclusive to The Edmonton Bulletin
SAN FRANCISCO, May 3.—(BUP)—Six explosions shook Alcatraz Island in rapid succession today as a band of desperate convicts, foiled in their escape plot, fought back grimly from their isolated barricade against U.S. Marines and prison guards.

Reichsmarshal Shows His Contempt Immoral, Criminal, Goering Like Nero Schacht Tells Court

By WALTER CRONKITE
Exclusive to The Edmonton Bulletin

NUERNBERG, May 3.—(BUP)—Hermann Goering thumbed his nose at Hjalmar Schacht today when he learned that the former Nazi financial wizard once branded him as "immoral and criminal."

Everyone in the war crimes courtroom—except the judge—roared with laughter at the gesture which came as American prosecutor Robert Jackson read a description of Goering given by Schacht to a prison psychiatrist last fall.

"He is a criminal," said the statement, "a moral type," the statement said. "But Goering I can only regard as immoral and criminal... the most egotistic man imaginable. His greed knew no bounds."

Schacht squirmed as Jackson continued. Goering tapped his forefinger on his temple to indicate that the author of the statement must have been crazy.

"Goering's predilection for jewels," the statement said, "was unimaginable. He knew no friendship—only if someone was useful to him was he a friend. His knowledge in all fields equalled zero—especially economics."

Mr. Goering, returning to Canada in 1931. He was arrested and interned in September, 1942, and later released conditionally.

Carr Citizenship Subject of Query

OTTAWA, May 3.—(CP)—Anthony Hyndak (S.C. Vegreville), asked last night in the Commons for information on the naturalization of Sam Carr, former organizer of the Labor Progressive Party who is sought as a witness in connection with trials in the Soviet espionage investigation.

Mr. Hyndak said Carr had been granted citizenship within the last two years "despite his anti-Canadian attitude." He said Carr came to Canada in 1924. Five years later he went to Moscow to study at the Lenin Institute, returning to Canada in 1931. He was arrested and interned in September, 1942, and later released conditionally.

"IF WE ARE GOING to be so lax as to grant naturalization to an individual who in the first place was held a definite attitude against the interests of Canada there is something wrong."

State Secretary Martin said he was not familiar with the case but would obtain the information.

Slightly Warmer Weather Forecast

The cooler weather which in many homes has resulted in re-kindling of hearth fires after mid-spring "lay off" will be eased by slightly higher temperatures, according to Friday's report from the Dominion public weather office.

THE OFFICIAL forecast was "clear, clearing slowly and a little warmer." Estimated high reading for the day is 58. At 10 a.m. the reading was 42.

Highest temperature Thursday was 50 at 9 a.m., while the low was 33 at 5:30 a.m. Overnight low was 38 at 5:30 a.m. Friday. Sun rises Saturday at 4:55 a.m. and sets at 8:06 p.m.

Steel Workers Begin Negotiate

TORONTO, May 3.—(CP)—Wage negotiations between the United Steelworkers of America (C.I.O.) and Canada's three large basic steel companies—the Steel Company of Canada, Hamilton, Ont., the Algoma Steel Corporation, Sault Ste. Marie, Ont., and the Dominion Steel and Coal Corporation, Sydney, N.S.—are getting underway. It was announced last night at union headquarters.

As the struggle continued in great fury, Federal Prison Director James Bennett announced in Washington that the remaining rioters had been cut off and it's only a matter of time and before the whole situation will be under control.

THE MARINES and guards were using grenades in an attempt to drive the revolting desperadoes from their cell block.

At 10 a.m. intense activity was observed on the island. Prison guards and leathernecks skirted around the cellblock building, both sides firing.

ALMOST 24 HOURS after the battle broke out, two prison officers had been shot to death and 14 injured.

U.S. marines attempted to punch holes in the top of the main cellblock to drop hand grenades on the mutinying prisoners.

The U.S. Army arsenal at Benicelli, Calif., sent 10 cases of fragmentation hand grenades and 10 cases of carbine ammunition to the embattled island, at the request of Warden James A. Johnston.

BRITISH UNITED PRESS correspondent Jack Dailey, circling the "rock" in a police launch, reported by radio-telephone that expected to be the last of the fighting.

Edmonton Soldier Involved in Trial

By WILLIAM BOSS
AMSTERDAM, May 3.—(CP)—An Amsterdam café doorman testified yesterday at the court martial of Pte. John Merkle of Gravelbourg, Ont., that a Canadian soldier from Edmonton named Kolesar had, while accompanying Merkle, offered him 50 guilders (\$20) if he would help him to escape.

Merkeley was charged with the Jan. 19 murder of Sgt. Louis Stork of the Netherlands air force.

The doorman, Johannes Cornelius Kok, said he saw Merkle with him with a revolver and the evening both Kolesar and Merkle visited his (Kok's) employer, Jan Homma, offering to sell him the jeep for 600 guilders. Homma declined the offer.

Merkeley went on trial Wednesday before a Canadian military court martial. He was charged with the murder of Sgt. Stork, identified later as that of Sgt. Stork, was found guilty of the murder. An abandoned and blood-stained jeep was found by police in Rotterdam, Holland, after the trial.

Strike May Hit Grain Movement

WINNIPEG, May 3.—(CP)—The United States coal strike threatens to curtail the flow of grain movement from Port William and Port Arthur to Montreal.

Sufficient coal supplies are available to keep the mills running 10 days, and already the water movement from Port William and Port Arthur to Montreal has been curtailed and grain vessels in most cases are going only as far as Georgian Bay ports.

STOCKS OF ALL grains in eastern Canada are relatively low and there is an urgent demand for supplies to maintain the flow of bread grains overseas to famine-ravished countries. Shipments for the last 10 days of April to eastern ports totalled about 15,000,000 bushels of wheat.

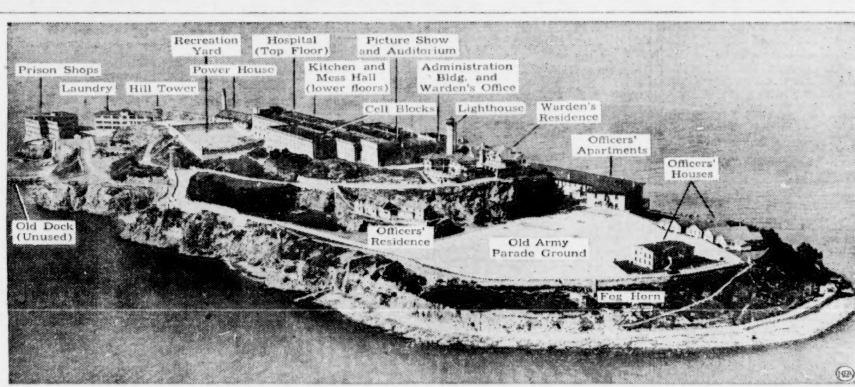

Shippers here said 100 vessels have been engaged in the grain movement, taking supplies from the big terminals at Port William and Port Arthur.

Railway Service Cut 50 Pct. in U.S.

WASHINGTON, May 3.—(AP)—The office of defence transportation today ordered a 50 per cent. reduction in passenger service by coal-burning locomotives, effective May 15, to conserve dwindling coal supplies.

Premiers Fail to Reach an Agreement With Government

Ottawa Talks Off Indefinitely

GUARDS, CONVICTS IN DEATH BATTLE: Here is the layout at Alcatraz federal prison where a cornered group of desperadoes, foiled in a bid to escape, are waging a death battle with prison guards and United States Marines.

Main buildings and "points of interest" on "The Rock" are shown in the photo.

Appeal Panel Urges Tax Board To Hear Appeals

OTTAWA, May 3.—(CP)—Senator John T. Haig, Progressive Conservative leader in the Senate, proposed yesterday the Senate income tax committee recommend appointment of a board of tax commissioners to serve as an appeal board to which taxpayers dissatisfied with assessments could appeal.

UNDER PRESENT procedure dissatisfied taxpayers appeal to the national revenue minister who makes a ruling based on inquiries by his officials. The only recourse after that is the exchequer court. Under procedure proposed by Senator Haig taxpayers would appeal to the appeal court and notify the minister to that effect. The appeal court would make an inquiry into the matter, which also could be taken to the exchequer court.

Object of the proposal is to give taxpayers an inexpensive procedure to have his assessment adjudicated by an independent tribunal instead of the minister.

Ottawa Member Dies in Quebec

CHATEAU, Que., May 3.—(CP)—Wallace R. McDonald, 70, Liberal member of parliament for Pontiac since 1935, died at his home yesterday. He had been in ill health for the last year.

His death is the first death of a member of parliament since the general elections of 1945.

A NATIVE of Portage du Fort, Que., he was a member of the Quebec legislature from 1919 to 1934. During his parliamentary service he was elected speaker of the house of commons for both labor and management in the gold and base metal mining area of northern Quebec.

His death brings the number of vacancies in the commons to two. Hon. Herbert A. Bruce, Progressive Conservative member of parliament for Toronto-Parkdale, retired last month.

Record Is Made In Tax Payments

A record for first instalment payments of city land and property taxes was predicted by city assessors' officials as Edmontonians thronged to the department to pay their 1946 taxes.

A VETERAN OFFICIAL of the department said the rush to pay taxes has never been so heavy in recent years as both large and small property holders take advantage of the city's tax payment installment plan.

The tax notices for 1946 were mailed out last week, and the response so far greatly exceeds that of any recent year, this official said. He remarked also that there were less complaints this year than usual, and in many instances taxpayers sending their payments by mail were complimenting officials for their efficiency.

THE FIRST instalment of land and property taxes is due on May 16 next, the second on July 16, the third on Sept. 16, and the fourth and final payment on November 16. Instalments or portion thereof not paid at the due date carries a penalty of one per cent of the unpaid amount for each month or period of a month that such instalment remains unpaid, but the total penalty on any instalment up to Dec. 31 shall not exceed six per cent.

20,000 Acres at Montney Prairie Land in North Is Surveyed For Settlement by Veterans

Exclusive to The Edmonton Bulletin
FORT ST. JOHN, B.C., May 3.—Duncan Cran, Dominion land surveyor, began today to survey 20,000 acres of land at Montney Prairie, near here, for settlement by returned veterans. Cran will do the work for the department of mines and resources, Ottawa, and title to the land when surveyed will be transferred to the department of veterans' affairs.

APPLICATIONS for quarter sections have already been made by many veterans. The land was formerly an Indian reserve and had never been brought under the plow. It is rich black loam and much of it is ready for cultivation. It is served by the Alaska highway and is near the new Consolidated school at Fort St. John. Farmers have successfully cultivated homesteads all around the tract for many years.

Department of veterans' affairs

For Three-Quarter Fiscal Period Profits of Liquor Board Reported at \$6,208,395

Profits of the Alberta Liquor Control Board for the three quarters of the fiscal year which ended Dec. 31, 1945, Huckleval, provincial auditor, reported today.

AT THE SAME TIME, Mr. Huckleval revealed that no interim statement showing the financial standing of the province for the three quarters concluded with the end of the year would be issued this year, as refunding operations have made the picture a somewhat complicated one. No statement showing the province's financial standing may be issued until the release of the public accounts for the whole year ended March 31, 1946.

Of the amount earned by the liquor control board \$3,253,000 was forwarded to the general revenue fund of the province. For the same period in the previous year, the province had received \$3,750,000.

Record Is Made In Tax Payments

A record for first instalment payments of city land and property taxes was predicted by city assessors' officials as Edmontonians thronged to the department to pay their 1946 taxes.

A VETERAN OFFICIAL of the department said the rush to pay taxes has never been so heavy in recent years as both large and small property holders take advantage of the city's tax payment installment plan.

The order affects nine power companies and more than 5,000,000 residents of about 1,300 communities in the northern two-thirds of the state.

The order effective immediately when it was announced Wednesday night, had this effect on night life activities.

Now, houses, legitimate stage shows, taverns, baseball contests, boxing and wrestling matches and bowling alleys may use electricity only between 2 and 6 p.m. Night clubs, classed as restaurants if they serve food, may use electricity later than that but none in connection with their floor shows.

Study Institution Cocktail Lounges

CALGARY, May 3.—(CP)—Whether or not the closing of beverage rooms from 6:30 until 7:30 p.m. will be continued when the new 12-hour day is instituted has not yet been decided by the liquor control board, J. A. King, chairman, said here Thursday. Negotiations between hotel men and beverage room employees may have some bearing on this, he intimated. As to the institution of cocktail lounges, suggested by D. E. Campbell as an incentive to tourist trade, they have been considered, the chairman said.

Deadlock Possible See Little Hope Big 4 Agreement

By JOSEPH W. GRIGG
Exclusive to The Edmonton Bulletin
PARIS, May 3.—(BUP)—The possibility of the Big Four foreign ministers' conference ending next week in a complete deadlock between Russia and the western powers, without a single major agreement, was discussed openly today.

James F. Byrnes, Sen. Tom Connally and Sen. Arthur Vandenberg of the United States delegation were known to be not anxious to prolong their stay in Paris any further than was absolutely necessary.

THE ONLY REASON for expediting the conference to conclude longer now appeared to be a hope of reaching compromise agreements on major issues. After more than a week of fruitless negotiations, no sign of any such agreement had been seen.

If no agreement on peace treaty drafts is reached, it seemed virtually certain that the first peace conference originally scheduled for May 1 would be postponed, definitely or discarded altogether.

Drastic Shutdown On Chicago Power

CHICAGO, May 3.—(AP)—Chicago, its night life business booming under the stimulus of record post-war spending, made hurried preparations yesterday to change itself into a sedate 6 o'clock town.

Under a drastic electricity rationing order issued by the Illinois commerce commission to conserve coal, most commercial users are limited to use of such power between 2 and 6 p.m. Monday through Saturday, until new supplies be secured.

THE SWEEPING EDICT, more drastic than any imposed in war time, also limits industrial users to 24 hours of power a week and bans show window and sign lighting in excess of minimum requirements.

The order affects nine power companies and more than 5,000,000 residents of about 1,300 communities in the northern two-thirds of the state.

The order effective immediately when it was announced Wednesday night, had this effect on night life activities.

Now, houses, legitimate stage shows, taverns, baseball contests, boxing and wrestling matches and bowling alleys may use electricity only between 2 and 6 p.m. Night clubs, classed as restaurants if they serve food, may use electricity later than that but none in connection with their floor shows.

Five Hops Weekly Across Atlantic

MONTREAL, May 3.—(CP)—A big silver Lancaster took off from Dorval airport yesterday to inaugurate trans-Canada Air Lines' fifth weekly trans-Atlantic flight. East-bound flights from Montreal now are scheduled daily except Sundays and Tuesdays. Westbound flights from Prestwick, Scotland, will be made daily except Tuesdays and Thursdays.

Heavy volume of tax returns here. Page 10.

Prison Fight

(Continued from Page 1)

Prisoners—apparently from bursting windows—rocked the penitentiary at five-minute intervals.

On the island, Warden Johnston issued a terse order to "shut them out." Bennett said in Washington, however, that prison authorities intended to let the rioting prisoners "without loss of life." He indicated officials would move with extreme caution to "prevent further injuries to guards."

THE REBELLIOUS convicts, armed with an arsenal of guns, continued to exchange fire with manœuvring guards throughout the morning. A barrage of tear gas and smoke shells whistled through the barred windows of the prison's main cell block. They exploded inside.

Approximately 16 kidnappers, murderers, robbers and assorted crime-hardened federal felons were united in an apparent fight to the finish—a fight that now had no apparent purpose except continued bloodshed. Avenues of escape were blocked solidly.

As guards fired a rapid series of grenades through the cell block windows, the Marines were ordered to chop a hole in the roof to drop more grenades into the besieged area. Through a telescope at the marine exchange lookout post, other leathernecks could be seen setting up automatic weapons in protected positions in the high wall.

FOUR PRISON officials who were trapped in the cellblock when the riot started were rescued. They were wounded and weak from loss of blood. They had lain on the floor more than seven hours feigning death to escape the convicts' bullets, before their rescue shortly before midnight. A fifth escaped unharmed.

Another guard said was directing the attack by telephone from a position in the cellblock where he could not retreat for fear of being cut down by the convicts.

DESPITE the fact that they no longer stand a chance of getting out of the island alive, the band of murderers, bank robbers and kidnappers continued to fire sporadically early today.

They were locked into the west wing of the main cellblock, surrounded and outnumbered.

Warden Johnston estimated six convicts "as the ring leaders who seized arms and ammunition."

He identified them as Joseph Paul Creter, 35, bank robber and murderer; Bernard Paul Coy, 46, armed robber; Hiram Edgar Thompson, 29, kidnapper-murderer; Sam Schockley, 36, kidnapper-bank robber; Marvin Franklin Hubbard, 34, kidnapper and Clarence Carnes, 19, kidnapper.

TWO DESTROYER escorts and five coast guard cutters and patrol boats maintained a tight blockade around "The Rock" to prevent any convicts from escaping across the water and one-half mile channel to the mainland.

The detachment of more than 20 marines, many of them battle-hardened veterans of the Pacific war, went ashore from a patrol boat at 6:18 a.m. PST last night.

At 6:18 a.m. PST last night, more than four hours after a convict overpowered a guard, seized his sub-machine gun and riddled other inmates in an attempted break.

MARINE MAJOR Albert Arsenault, who talked to Warden James A. Johnston early today, said the riot started shortly after 2 p.m. (PST) yesterday when a convict, believed to be Coy, serving 25 years for bank robbery, jumped guard and seized his sub-machine gun, pistol and keys to the cell block.

Five other prison officials noticed the commotion and rushed to the gun gallery. They were cut down by fire from Coy and several other convicts whom he had gotten out of their cells. They lay on the floor and feigned death for more than seven hours before they were rescued, Arsenault said.

SATISFACTORY alike to organizers, chairmen, ministers and congregations, the Minshall Organ fills a long-felt want in churches that are unable to consider the cost of an expensive organ installation.

This fine instrument produces that rich mellow tone so desirable in securing a proper ecclesiastical musical setting for the entire service. It has a remarkable volume where that is required; can be shrouded down to a whisper for solo work or pianissimo passages; and has a pleasing flexibility of expression.

Many congregations are installing Minshall Organ as tribute to Mr. Memorial.

Full Particulars on Request

Conference

(Continued from Page 1)

He figures, Mr. Isley said, were based on 1947 estimates.

Acceptance of the Ontario proposals would mean that tax transfers and payment of subsidies would total more than all provincial taxes, "something like \$300,000,000 more."

This was "entirely out of the question" for the Dominion.

ONTARIO SUGGESTED yesterday that the annual rental to the provinces for getting out of income tax corporation rates be \$12 million, multiplied by the gross national production per capita for the year 1941, multiplied by the province for the year preceding the rental.

Mr. Isley said Ontario had also proposed that this rental not include the statutory subsidies now being paid by the Dominion. Ontario had asked that the Dominion not collect succession duties, gasoline, amusement, security transfers, partnerships and electricity.

THE STATUTORY subsidies amounted to \$17,000,000, the giving of which would mean that the Dominion would amount to \$102,000,000 annually and the rental to the provinces for income tax would amount to \$188,000,000.

This meant that the Ontario proposal would mean that the Dominion would have to pay \$188,000,000 next year. The Dominion's proposed subsidies to the provinces would amount to \$188,000,000 next year, making a difference of \$109,000,000 in the two.

Mr. Isley said he still considered the Dominion proposals "a fair offer. They would give the provinces an amount 59 per cent of those received under the wartime tax agreements. Those agreements gave the provinces an average of \$124,801,000 while the present Dominion proposals would give them \$188,000,000."

UNLESS THE PROVINCES planned to levy "very high" income and corporation taxes if they turned down the Dominion plan he did not think they could reasonably expect to receive nearly as much as the Dominion was offering.

In addition to the subsidy payments, however, the Dominion had also offered other commitments such as social security, public investment and unemployment assistance benefits.

The Dominion, he said, must adhere to the position that its financial stand was as already stated. A well-known member of the Alberta bar, he also had been a prominent figure as an owner of thoroughbred horses, and at one time was president of the Alberta Thoroughbred Horse Breeders' Association.

MR. ISLEY CONTINUED with a detailed review of Ontario's proposals which, he said, provided for much higher subsidies, although Ontario objected to the subsidy principle. Ontario was asking for foreign exchange to be made available at a long rate which was available to other Canadians.

In asking the Dominion to assume responsibility for the unemployed there was a departure from provincial responsibility. Mr. Drew had said he was more interested in principles than in money but "tremendous" amounts were involved in the plan Ontario had advanced.

Mr. Isley said that the Ontario had said it was being asked to vacate tax fields worth \$100,000,000. The most the province had ever obtained from those fields was \$29,000,000.

EXCEPTIONALLY HIGH rates would have to be levied by the province on income to make up the balance.

"If we were to accept the proposal," Mr. Isley said, "it would be a reduction in personal income tax and go some way towards reducing duplication of taxes we will have to pay with the financial limits of the Dominion proposal."

Mr. Isley, replying to a question by Premier Macdonald of Nova Scotia, said that if the Dominion gave up gasoline taxes, for instance, the bargain would not have to be the same with all provinces providing there was no financial loss to the Dominion.

THIS MEANT the provinces could have exclusive use of that tax field if they agreed to give up part of their subsidy, or if they accepted to forego certain provincial federal grants.

However, the Dominion could not agree to let one province give up gasoline taxes, for instance, and allow another to retain it.

DREW SUGGESTS REVISED PROPOSALS

OTTAWA, May 3.—(CP)—Premier Drew of Ontario suggested today that the Dominion take time to revise its proposals to the Dominion-provincial conference "in the light of the positions taken by the provinces" and then call the conference together again to consider a new transitional tax agreement.

HE SAID that as the only possible course for saving the conference from failure to agree.

Mr. Drew said Finance Minister Isley had pointed out yesterday that it was impossible to make a

600,000 made a total of at least \$124,801,000.

He figures, Mr. Isley said, were based on 1947 estimates.

Acceptance of the Ontario proposals would mean that tax transfers and payment of subsidies would total more than all provincial taxes, "something like \$300,000,000 more."

This was "entirely out of the question" for the Dominion.

ONTARIO SUGGESTED yesterday that the annual rental to the provinces for getting out of income tax corporation rates be \$12 million, multiplied by the gross national production per capita for the year 1941, multiplied by the province for the year preceding the rental.

Mr. Isley said Ontario had also proposed that this rental not include the statutory subsidies now being paid by the Dominion. Ontario had asked that the Dominion not collect succession duties, gasoline, amusement, security transfers, partnerships and electricity.

Those agreements gave the provinces an average of \$124,801,000 while the present Dominion proposals would give them \$188,000,000."

UNLESS THE PROVINCES planned to levy "very high" income and corporation taxes if they turned down the Dominion plan he did not think they could reasonably expect to receive nearly as much as the Dominion was offering.

In addition to the subsidy payments, however, the Dominion had also offered other commitments such as social security, public investment and unemployment assistance benefits.

The Dominion, he said, must adhere to the position that its financial stand was as already stated. A well-known member of the Alberta bar, he also had been a prominent figure as an owner of thoroughbred horses, and at one time was president of the Alberta Thoroughbred Horse Breeders' Association.

MR. ISLEY CONTINUED with a detailed review of Ontario's proposals which, he said, provided for much higher subsidies, although Ontario objected to the subsidy principle. Ontario was asking for foreign exchange to be made available at a long rate which was available to other Canadians.

In asking the Dominion to assume responsibility for the unemployed there was a departure from provincial responsibility. Mr. Drew had said he was more interested in principles than in money but "tremendous" amounts were involved in the plan Ontario had advanced.

Mr. Isley said that the Ontario had said it was being asked to vacate tax fields worth \$100,000,000. The most the province had ever obtained from those fields was \$29,000,000.

EXCEPTIONALLY HIGH rates would have to be levied by the province on income to make up the balance.

"If we were to accept the proposal," Mr. Isley said, "it would be a reduction in personal income tax and go some way towards reducing duplication of taxes we will have to pay with the financial limits of the Dominion proposal."

Mr. Isley, replying to a question by Premier Macdonald of Nova Scotia, said that if the Dominion gave up gasoline taxes, for instance, the bargain would not have to be the same with all provinces providing there was no financial loss to the Dominion.

DREW SUGGESTS REVISED PROPOSALS

OTTAWA, May 3.—(CP)—Premier Drew of Ontario suggested today that the Dominion take time to revise its proposals to the Dominion-provincial conference "in the light of the positions taken by the provinces" and then call the conference together again to consider a new transitional tax agreement.

HE SAID that as the only possible course for saving the conference from failure to agree.

Mr. Drew said Finance Minister Isley had pointed out yesterday that it was impossible to make a

600,000 made a total of at least \$124,801,000.

He figures, Mr. Isley said, were based on 1947 estimates.

Acceptance of the Ontario proposals would mean that tax transfers and payment of subsidies would total more than all provincial taxes, "something like \$300,000,000 more."

This was "entirely out of the question" for the Dominion.

ONTARIO SUGGESTED yesterday that the annual rental to the provinces for getting out of income tax corporation rates be \$12 million, multiplied by the gross national production per capita for the year 1941, multiplied by the province for the year preceding the rental.

Mr. Isley said Ontario had also proposed that this rental not include the statutory subsidies now being paid by the Dominion. Ontario had asked that the Dominion not collect succession duties, gasoline, amusement, security transfers, partnerships and electricity.

THE STATUTORY subsidies amounted to \$17,000,000, the giving of which would mean that the Dominion would amount to \$102,000,000 annually and the rental to the provinces for income tax would amount to \$188,000,000.

This meant that the Ontario proposal would mean that the Dominion would have to pay \$188,000,000 next year. The Dominion's proposed subsidies to the provinces would amount to \$188,000,000 next year, making a difference of \$109,000,000 in the two.

Mr. Isley said he still considered the Dominion proposals "a fair offer. They would give the provinces an amount 59 per cent of those received under the wartime tax agreements. Those agreements gave the provinces an average of \$124,801,000 while the present Dominion proposals would give them \$188,000,000."

UNLESS THE PROVINCES planned to levy "very high" income and corporation taxes if they turned down the Dominion plan he did not think they could reasonably expect to receive nearly as much as the Dominion was offering.

In addition to the subsidy payments, however, the Dominion had also offered other commitments such as social security, public investment and unemployment assistance benefits.

The Dominion, he said, must adhere to the position that its financial stand was as already stated. A well-known member of the Alberta bar, he also had been a prominent figure as an owner of thoroughbred horses, and at one time was president of the Alberta Thoroughbred Horse Breeders' Association.

MR. ISLEY CONTINUED with a detailed review of Ontario's proposals which, he said, provided for much higher subsidies, although Ontario objected to the subsidy principle. Ontario was asking for foreign exchange to be made available at a long rate which was available to other Canadians.

In asking the Dominion to assume responsibility for the unemployed there was a departure from provincial responsibility. Mr. Drew had said he was more interested in principles than in money but "tremendous" amounts were involved in the plan Ontario had advanced.

Mr. Isley said that the Ontario had said it was being asked to vacate tax fields worth \$100,000,000. The most the province had ever obtained from those fields was \$29,000,000.

EXCEPTIONALLY HIGH rates would have to be levied by the province on income to make up the balance.

"If we were to accept the proposal," Mr. Isley said, "it would be a reduction in personal income tax and go some way towards reducing duplication of taxes we will have to pay with the financial limits of the Dominion proposal."

Mr. Isley, replying to a question by Premier Macdonald of Nova Scotia, said that if the Dominion gave up gasoline taxes, for instance, the bargain would not have to be the same with all provinces providing there was no financial loss to the Dominion.

DREW SUGGESTS REVISED PROPOSALS

OTTAWA, May 3.—(CP)—Premier Drew of Ontario suggested today that the Dominion take time to revise its proposals to the Dominion-provincial conference "in the light of the positions taken by the provinces" and then call the conference together again to consider a new transitional tax agreement.

HE SAID that as the only possible course for saving the conference from failure to agree.

Mr. Drew said Finance Minister Isley had pointed out yesterday that it was impossible to make a

600,000 made a total of at least \$124,801,000.

He figures, Mr. Isley said, were based on 1947 estimates.

Suggests Changes In Security Code

TORONTO, May 3.—(CP)—Revision of the Ontario Securities Code designed to reduce "bureaucracy" and questionable trading practices while giving securities men a greater voice in their own policing, was proposed last night by Chairman C. P. McTague of the Ontario Securities Commission.

IN AN ADDRESS to the annual dinner of the Toronto stock exchange Mr. McTague admitted he was "floating a trial balloon" in suggesting four major revisions. These were:

1. A streamlined Toronto Exchange Act giving the local governing powers over to purely exchange business.

2. An investment dealers act confining and legalizing the "splendid job" members of the Investment Dealers Association "have already done on a purely voluntary basis" and introducing new elements "which may be considered advisable and advantageous to the business of (Bay) street as a whole."

3. A security dealers act providing "some measure of self-government and control of trading practices" for security dealers who come neither under the stock exchange nor the Investment Dealers Association.

4. A re-written securities act co-ordinating all the commission's proposed changes in the laws.

MR. MCTAGUE SPOKE of the difficulty of adequate control of securities finance and asked his audience of brokers and dealers what they had done to help solve the problem in any organized and constructive way.

IRAN TROUBLES DOMESTIC, TOO: A distance of 1,300 miles and a whirlpool of emotions today separate Princess Fawlah of Egypt, lovely 25-year-old queen of Iran, from her husband, the Shah. He is in Teheran; she is in Cairo with her brother, King Farouk of Egypt. She is trying to decide whether to go on pressing for a divorce or to return to the handsome but autocratic young Shah. Reports that the pair was negotiating a divorce have been officially denied by the Iranian embassy in Cairo, but nevertheless the queen refuses to return, and it is apparent that relations between herself and the Shah are not improving.

Goering

(Continued from Page 1)

opinion on the extent of rearmament, as Schacht had implied.

He said the fight, which resulted in Schacht's resignation as war economy minister, was over "who would control the rearmament."

"You both agreed that Germany should rearm as rapidly as possible, didn't you?" Jackson asked.

"I never disputed that I wanted to rearm so that Germany would have equality," Schacht replied, "but Goering wanted to go further."

JACKSON TRIED unsuccessfully to make Schacht admit that colonial development would require an increased navy to protect trade routes, but the Nazi financier said: "I believed international law would be sufficient."

Schacht claimed he tried to divert Hitler's attention from eastern expansion to the development of Germany's former African colonies. The American prosecutor forced Schacht to admit that, although he testified that he blamed foreign powers for supporting Hitler, he had criticized Franklin D. Roosevelt's Chicago quarantine speech as "sanctimonious hypocrisy."

"In your interrogation last October," Jackson said, "you said you considered the method 'wrong and reprehensible,' yet you took over the Austrian banking system and liquidated employees."

"I DIDN'T LIQUIDATE them," Schacht answered, "I just purged them."

After Schacht testified that the Reichsbank was completely free of politics, Jackson read an excerpt from a speech Schacht made to

Goering

(Continued from Page 1)

the Reichsbank will always be nothing but National Socialist otherwise I will resign."

Schacht denied that Germany "took over" Czechoslovakia. He said it was presented to Germany by the Allies as a "gift."

HE ADMITTED that he continued to receive a salary and pension after his resignation from the Reichsbank. "I hope to continue to receive my pension," he said. "How else would I meet my expenses?"

"I don't think they'll be very high, Doctor," Jackson replied, and Schacht joined the other defendants in laughter.

It also heard proposals for changes in the income tax legislation advanced by the Toronto Board of Trade, Certified Public Accountants' Association and the Canadian Electrical Association and the Canadian Importers' Association.

The accountants' brief suggested payment of higher salaries to departmental officials in order to attract and hold well qualified men. J. E. Entwistle of Toronto, who presented the brief, said the \$10,000 a year paid Fraser Elliott, deputy minister in charge of the taxation section of the revenue department, was "the most ridiculous salary in Canada." A salary of \$20,000 should be paid for such a position.

A RESOLUTION relating to the medical association published in a consideration declared that before the council recommends doctors to accept or refuse service they should be given a three-day house of commons debate.

Another resolution said a referendum of the profession should be taken immediately to determine the view of medical men before the bill becomes law.

Equipment Awaits Russian Credits

VANCOUVER, May 3.—(CP)—The Vancouver council published a special despatch from Ottawa quoting a government official as saying it will be necessary for Russia to negotiate a loan or make other financial arrangements if she wants the large stockpile of flat cars, cranes, rails and other rail equipment stored in the Vancouver area.

End of the war found substantial stocks of materials ready for shipment to Russia. Mutual aid terms provided that when the war ended any commodities not ready shipped would be charged for. The Russian-ordered goods stored on the Pacific coast include 300 flat cars too broad in gauge for Canadian use.

Los Angeles City Without Transport

LOS ANGELES, May 3.—(AP)—Public transportation in this wide-spread metropolis was paralyzed early today when approximately 4,000 motormen, conductors, bus drivers and maintenance men went on strike for higher wages.

Street cars and buses rolled to a stop in car barns and garages. Union officials said there would be no picketing and that employees had been instructed to "go home and stay there."

THE UNION is demanding \$1.26 an hour for a 40-hour week, against the present scale of \$1.03 and 44 hours. The company countered with an offer of \$1.10 and a 48-hour week, which was rejected.

Four thousand operating employees are involved.

To Ordain Indian As Anglican Priest

VANCOUVER, May 3.—(CP)—A 30-year-old Indian will shortly be ordained a clergyman in the Anglican church. Frank Arthur Calder of Greenville, B.C., was one of two students who graduated at the convocation of the Anglican Theological College last night. Mr. Calder said he is keenly interested in the welfare of Indians and plans taking advanced studies at the University of Washington before being ordained.

Mr. Calder is in Northern British Columbia.

Russian Loan

LONDON, May 3.—(AP)—Soviet Russia today called on her people to subscribe to a 20,000,000,000 ruble (nominally \$7,774,000,000) loan "for restoration and development of the USSR's national economy," the Moscow radio said.

Truman Bristles At Press Parley

BY CLYDE BLACKBURN

WASHINGTON, May 3.—(CP)—President Truman obviously harassed and impatient, snapped at reporters during yesterday's press conference, warned the government would step into the soft coal strike if necessary, and complained bitterly that private business was taking all the good men and making it difficult for him to get able government aides.

MR. TRUMAN SAID that strikes against the government were illegal, that he believed they would never be legalized and that if they were it would mean that government would cease to exist.

He bluntly told a news agency reporter it was none of his business when he asked what had been discussed at Wednesday's cabinet meeting.

Aid to France had not been discussed at all, the president said.

On other subjects, questioning brought out these points:

THE COAL SITUATION is serious and Mr. Truman views it with alarm. As a strike against the government, but if it becomes necessary it will be so regarded. The president said he did not think it will be necessary for him to step into the railroad strike situation.

Food rationing would not remedy the international emergency because of lack of adequate international operations. The president won't hesitate to restore rationing in the event of a disastrous crop failure.

Edward W. Pauley is going to the Orient as chief of the American reparations commission to study resources and industrial installations, particularly in Manchuria and Korea.

Wheat Seeding Well Advanced

WINNIPEG, May 3.—Wheat seeding is well advanced in many parts of western Canada, notably in the southern sections, with early snow wheat beginning to show above the ground in a few districts.

Little precipitation has occurred to date and high winds have caused some soil drifting in Saskatchewan and Alberta recently, according to the first weekly crop report of the Department of Agriculture of the Canadian National Railways.

Beards Are Back

LONDON, May 3.—(Reuters)—The beard—not grandfather's luxuriant bush, but a skimping Van Dyke—has become fashionable again in London. According to one barber, "there certainly seems to be a revival of beards, especially among the young men between 20 and 30."

Truman Bristles

At Press Parley

BY CLYDE BLACKBURN

WASHINGTON, May 3.—(CP)—President Truman obviously harassed and impatient, snapped at reporters during yesterday's press conference, warned the government would step into the soft coal strike if necessary, and complained bitterly that private business was taking all the good men and making it difficult for him to get able government aides.

MR. TRUMAN SAID that strikes against the government were illegal, that he believed they would never be legalized and that if they were it would mean that government would cease to exist.

He bluntly told a news agency reporter it was none of his business when he asked what had been discussed at Wednesday's cabinet meeting.

Aid to France had not been discussed at all, the president said.

On other subjects, questioning brought out these points:

THE COAL SITUATION is serious and Mr. Truman views it with alarm. As a strike against the government, but if it becomes necessary it will be so regarded. The president said he did not think it will be necessary for him to step into the railroad strike situation.

Food rationing would not remedy the international emergency because of lack of adequate international operations. The president won't hesitate to restore rationing in the event of a disastrous crop failure.

Edward W. Pauley is going to the Orient as chief of the American reparations commission to study resources and industrial installations, particularly in Manchuria and Korea.

THE PRESIDENT hoped congress would act on all the points of his legislative program before it adjourned this summer.

A lot of consideration has been given to declaring a formal end to the war, but no decision has been reached.

Weather conditions in northern Alberta have been unfavorable to permit field operations on a large scale. Seeding is started and will be general by this week-end. Strong winds and light rains have occurred at various points and moisture conditions are considered good. Seeding throughout this area is somewhat later than normal.

Discussions Opened On Soldiers' Kiddies

LONDON, May 3.—(Reuters)—Discussions with Canadian and United States officials have been opened by the British government to maintain illegitimate children of Canadian and American soldiers in this country have been opened by the British government.

Press Officer

WINNIPEG, May 3.—Frank H. Spencer, of Calgary, has been appointed assistant press relations officer for the Canadian Pacific Railway in Winnipeg, it was announced today.

U.S. Plans Drive

On Highway Deaths

WASHINGTON, May 3.—(CP)—Americans are being asked to face the grim but inescapable fact that the mangled bodies of 40,000 men, women and children will be strewn along United States motor highways in 1946. About 1,000,000 persons will be injured.

Because of that appalling outlook President Truman has called a conference of interested organizations to be held in Washington May 8-10 in an effort to reduce the slaughter.

Highway deaths so far this year have jumped 50 per cent above the rate last year. During January alone 3,000 Americans were killed in motor vehicle accidents.

AUTHORITIES FIND that the three main causes of highway accidents are speed, drunken driving and faulty vision. In the final analysis the onus must be placed upon the driver, investigators have decided.

The United States recently approved a \$3,000,000,000 joint federal and state inter-regional highway system on which speed will be unlimited—will be encouraged to exceed 75 miles and hour in rural sections and 60 miles an hour in urban areas.

Many authorities argue that a great majority of deaths will be the necessary cost of vision to operate at such speeds.

Ask Loyalty Tests For Canadian Japs

OTTAWA, May 3.—(CP)—A test of loyalty which would determine whether citizenship should be revoked for disloyalty was suggested last night in the Commons by Howard Green (PC-Vancouver South).

HE REFERRED to naturalized and Canadian-born Japanese living on the Pacific Coast and suggested some means should be devised to test loyalties such as theirs.

State Secretary Martin said the loss of citizenship was a delicate question and there must be care that action taken does not result in persons becoming "stateless" with no country in which to live.

The discussion arose during clause-by-clause study in committee of a section in the government's bill dealing with loss of citizenship.

Angus MacInnis (CCF-Vancouver East) said matters such as these should not be dealt with on a "racial basis." There were laws to deal with citizens who during war time assisted an enemy country.

TOM REID (L-New Westminster) read a letter sent to Labor Minister Mitchell by a Japanese Canadian who refused to do wartime work in Canada because it meant he would be helping Canada against Japan. This man had been born in Canada and had spent 15 years in Japan before returning to Canada shortly before the war.

James Sinclair (L-Vancouver North) said the Japanese could not be loyal to both countries. They could not and did not want to be Canadian.

Mr. Green asked for assurance that passage of the bill "would in no way affect the government's announced policy on Japanese in Canada."

Veterans Minister Mackenzie, as house leader, said the bill would have no effect on handling of the Japanese.

UN Council Meet Set For Tuesday

NEW YORK, May 3.—(AP)—Trygve Lie, secretary-general of the United Nations, has been asked to call the security council back in session next Tuesday, May 7, to take up the controversial Iranian case, a source within one of the delegations said yesterday. The council's resolution of April 4 provided that on May 6 it could ask new reports from Russia and Iran as to whether Russia had carried out her promise to withdraw all her troops from Iran. Deadline for Russian withdrawal from Iran does not expire until midnight May 6 and, for that reason a spokesman said, the delegates do not want a meeting before Tuesday.

U.S. Plans Drive On Highway Deaths

WASHINGTON, May 3.—(CP)—Americans are being asked to face the grim but inescapable fact that the mangled bodies of 40,000 men, women and children will be strewn along United States motor highways in 1946. About 1,000,000 persons will be injured.

Because of that appalling outlook President Truman has called a conference of interested organizations to be held in Washington May 8-10 in an effort to reduce the slaughter.

Highway deaths so far this year have jumped 50 per cent above the rate last year. During January alone 3,000 Americans were killed in motor vehicle accidents.

AUTHORITIES FIND that the three main causes of highway accidents are speed, drunken driving and faulty vision. In the final analysis the onus must be placed upon the driver, investigators have decided.

The United States recently approved a \$3,000,000,000 joint federal and state inter-regional highway system on which speed will be unlimited—will be encouraged to exceed 75 miles and hour in rural sections and 60 miles an hour in urban areas.

Many authorities argue that a great majority of deaths will be the necessary cost of vision to operate at such speeds.

Palestine Report Praised in Canada

WINNIPEG, May 3.—(CP)—S. Hart Green, vice-president of the Zionist organization of Canada, in a statement Wednesday praised the recommendations of the Anglo-American commission on Palestine "for its humane appreciation of the plight of Jewish refugees."

The inquiry committee recommended immigration of 100,000 Jews into Palestine as soon as possible and that Palestine should be neither a Jewish or an Arab state, Mr. Hart said, is part. "The recommendation... while not satisfying the entire case made out for the Jewish people, appears to be an honest and sincere effort to put first things first and to restore to the Palestine scene the atmosphere or logic and justice which has been lacking for many years."

Heed 75 miles and hour in rural sections and 60 miles an hour in urban areas.

Many authorities argue that a great majority of deaths will be the necessary cost of vision to operate at such speeds.

Open Garbage Dumps

There are nine open garbage dumps in the city of Edmonton, and one is a disgrace to any civilized community.

Each one of these nine dumps breeds flies by the millions. Each one is a pestilential menace to public health.

It is almost incredible that in this age of sanitation and in an age that is fully aware of the disease-carrying characteristics of flies and the danger of filth, any modern city should permit this archaic method of garbage disposal to continue.

The modern and only scientific practice is to burn it.

Edmonton should establish an adequate incinerator to burn its garbage with the least possible delay.

The Cancer Campaign

There still exists, it is said, a serious need for more canvassers to collect money for the current drive against cancer.

This is a project in which any man or woman of good will should be glad to devote as much time as possible.

The money is to be used not only to promote cancer research, but to educate the public in regard to prevention of the disease. While no specific cure yet is known for cancer in the latest stages, it can be eradicated if taken in time.

As a concrete instance of the fruits of this educational campaign, the following story is well authenticated: A woman who saw one of the cancer prevention films in Edmonton was moved by it to insist that her husband, who had had a small irritation on his lip for some weeks, should see a doctor. The irritation turned out to be cancer. Because of her insistence her husband will be cured. Had she not acquired this specialized information, the malignancy would have gone past the curable stage.

It is an exceedingly worthwhile work and should have the co-operation of everyone.

Those willing to canvass should apply at the Cancer Drive desk in the Hudson's Bay Company.

Any Day Will Do

Arbor Day this year will be whichever day the householder finds it convenient to plant trees, make flower beds, and otherwise improve the home surroundings. For statutory reasons no particular day is to be officially named in Alberta.

This should not weaken public interest in the objects and activities associated with Arbor Day. Beautification of the home premises is just as desirable in this year as in any other year, and just as effective in enhancing the value of property. And as a matter of fact tree-planting and other improvement operations are never confined to the day named in the official proclamation. This day only marks the beginning or the culminating point of the annual spring spruce-up.

In Alberta it is a long time between the season when the leaves and flowers disappear and the season when they come again. The more desirable it is therefore that the fullest advantage be taken of the months when plant life is active—and nowhere in the world is it more active, or more welcome, than during summer months.

These are the days when the householder must decide whether his home is to have a setting of foliage and flowers and green grass in the months to come. Neglect now will mean regrets later on. A little sacrifice of time, energy and money at present will bring rich returns in the appearance of the place a few weeks from now, and in the pleasure and satisfaction of the family.

The Taxpayer Sits In

The wide open sessions of the Dominion-provincial conference served one purpose that will be very useful, if it is not altogether pleasant. The public got a clear view of what is in the delegates' minds, and how it will affect the pocket of the private citizen.

The conferees are not talking in terms of lower peacetime expenditure, but larger. They are not talking about cutting outlay in order to "make it" the cost of the war, but they are not talking in terms of millions, but of scores of millions, even hundreds of millions, with which to carry on the ordinary business of the country.

The provinces want more peacetime money. The Dominion wants more. Both will have to get more if they are to meet their obligations and provide the new security services which are being demanded. For example, the Dominion is proposing to pay over to the provinces an estimated \$198,000,000 per year, against \$124,500,000 which they now receive, and to guarantee that their grants will not fall below \$181,400,000 per year.

The notion that post-war taxes could fall to the pre-war level vanished long ago. The question now is whether they can go back half-way to that level. Whether the Dominion is to do the collecting and pay subsidies to the provinces, or whether the provinces will collect on their own account, is incidental. One authority or both together will have to collect more than the taxpayers ever paid before except in wartime.

Maybe that is why the delegates decided

to hold some of the sessions with the doors open. What the public heard is an impressive reminder of what we expect more government activity in creating public works and giving new and broader services we may as well dismiss all dreams that taxation can fall to a point anywhere near the pre-war scale.

How Much Can They Pay?

Russia thinks Italy should pay \$300,000,000 reparations to Russia, Albania and Yugoslavia.

The western Allies have far larger claims for reparations. Italy's then government declared war for purposes of plunder, and with no other objective, Mussolini backed Hitler to win and aimed to be present when the spoils were to be divided.

To defend themselves against his attack the Allies several times more than the sum Moscow suggests. From Abyssinia through north Africa, to Sicily and up the peninsula itself the Duce's war was terrifically costly for Britain, the United States and Canada. To round up the Italian divisions sent to the eastern front cost Russia far less in men and money.

Italy is responsible for Mussolini's crime and for all that it entailed. And perhaps if they are "financed" for having allowed him to train "eight million" unneeded "bayonets" and turn them loose, the Italians will see that the like does not occur again.

But the practical question is how much the Italians can pay, and what would be the economic consequences of making them pay. Their country has never been rich. It is now desperately poor. Its people are living on international charity—the UNRRA has shipped them \$500,000,000 worth of supplies. Their prospects of gaining a position where they can do anything more than feed themselves, over a term of several years, are drab.

The Big Four foreign ministers therefore did the sensible thing in laying aside the reparations question while a committee surveys the Italian scene and finds out what chance there is to collect money, and what. These points determined, it will be possible to get away from abstractions and discuss reparations in an atmosphere of realism.

Somewhere in Canada

No man could be less welcome in Canada than S.S. Maj.-Gen. Kurt Meyer, who arrived on the Aquitania to spend the remainder of his life in a penitentiary. A prison is the only place of refuge he could find, and in prison if he were turned loose. It is unfortunate that he could not be incarcerated in some other part of the world.

But Meyer was tried by a Canadian military court for crimes committed against Canadian prisoners of war. The made Canada responsible for carrying out the sentence imposed upon him. This responsibility can only be discharged by confining him in a prison in Canada. We could not ask Britain to look after him, nor the occupation forces in Germany. He must be kept in Canada in custody and under the jurisdiction of Canadian authority.

The best that can happen in respect to Meyer and his unwilling hosts is that his presence be forgotten and his whereabouts unknown.

Looking Backward

From The Bulletin Files

1886: 60 Years Ago

Lieutenant-Governor Dewdney of the Territories is to be made Lieutenant-Governor of British Columbia. He will probably be succeeded here by Judge Parker.

Following have been appointed justices of the peace: R. Hardisty, M. McCauley, J. A. McDougall, W. Anderson, of Edmonton; John Turner and J. A. Simpson, of Calgary; E. C. and S. Cunningham, St. Albert; F. Lamaroux, Fort Saskatchewan; E. McGillivray and A. McNeill, Victoria; H. S. Young, Lac la Poudre; Charles Meek, Banff; and R. McCallan, Inverness.

A bill has been introduced at Ottawa to amend the charter of the Hudson Bay Railway Company.

Another Hudson Bay expedition is to be sent out this year.

1896: 50 Years Ago

A five-hole golf course has been laid out on the flat below the big house.

For buyers have bought a old club house opposite the Imperial Bank as a old exchange.

The Victoria Association Football Club was formed at a meeting in W. Smith's office.

A ball given by the brass band of South Edmonton was attended by about 20 couples, several from this side of the river.

1906: 40 Years Ago

A deflagation waited on the city council to protest against the proposal to establish the city incinerator on the public hospital grounds.

Winnipeg—Premier Roblin and his associates are giving attention to a proposal to build a railway to Hudson Bay.

1916: 30 Years Ago

London—The enemy has resumed shelling Verdun.

Ottawa—The House of Commons passed a war appropriation of \$250 millions.

1926: 20 Years Ago

London—Five million men are estimated to be involved in the general strike which became effective today.

Ottawa—The CNR is surveying a line from a point on the St. Paul line to Cold Lake.

Edmonton people will be counted three times in the next two months. There will be a civic census, a provincial enumeration, and a Dominion census.

1936: 10 Years Ago

Mountain View hotel, Cadomin, valued at \$10,000, was destroyed by fire.

"Bill" Rice, assistant secretary of the Canadian Legion for the past two weeks, resigned. J. C. MacIntyre, secretary-manager, appointed two weeks ago, had resigned two days before.

The law faculty of the University of Alberta, recommended the granting of degrees of LL.B. to William Beag, Medicine Hat; Bernard Berov, Edmonton; Kathleen Bingham, Vancouver; Douglas Bury, Olds; John B. Campbell, Edmonton; Sidney MacWetaskin, Henry Mackie, Edmonton; Noel McNeil, Calgary; and others.

Samuels, Edmonton; William Wood, Edmonton; Charles Perkins, Calgary; Thomas Costigan, Stettler; G. H. Van Allen, M.A. speaking at a Liberal gathering in Camrose, predicted that in a year "Social Credit will be no more than a 'let' sign on an empty house."

BRIDGE

Economy Is Only Road to Smaller Budgets—

Interest on the Public Debt Will Soon Exceed Five Hundred Millions a Year, and Once Cherished Hope Is Vanished of Pegging the National Expenditure at Fifteen Hundred Millions

By Grant Dexter

Ottawa Bureau of The Edmonton Bulletin

OTTAWA—The main estimate course will pass into the normal expenditure. On this calculation, the normal estimates of the Dominion will be about \$1,800 millions—that is the present peace time expenditures of \$1,253 millions plus \$550 out of the special war expenditures in the present year.

BUT TO THIS TOTAL OF \$1,800 millions must be added a number of items. There will be a further large addition to the public debt and the interest charges will have to be paid. The Dominion government in its proposals to the provinces has undertaken to foot the bill for old age pensions at \$200 million, without a means test, for all over 70 years. In addition the Dominion is pledged to help the provinces in paying pensions to the 65-69 age group. The total cost is estimated at \$225 millions per year. The estimated cost to the Dominion of the present old age pension in the current year is \$24 millions. There is, therefore, an increase here of \$200 millions.

Health insurance on the basis proposed by the Dominion, would add \$148 millions per year to the estimates.

THE SECOND ITEM covers payments to veterans. This amount in the current year is \$25.6 millions and the item will shrink as the months pass. The 1947-48 will scarcely exceed \$22.5 millions—a cut of \$500,000.

Reconstruction is to take \$179 millions in the present year, and here again, there will be a sharp falling off. An item of \$50 million for the termination of war contracts will not recur. But it is difficult to estimate how great the savings will be.

The price controls show up sharply in these special expenditures. There is an item of \$92.2 millions for agricultural subsidies and \$140 million for subsidies paid by the finance department. It is not anticipated that either item will be reduced in 1947-48—a saving of \$22.7 millions.

THERE ARE A NUMBER of other items related directly to the war: \$1 million for special films; \$500,000 for war services; \$400,000 for labor departments; \$638,000 for the civil service commission; \$4.4 millions for wartime public works; \$2.8 millions for the transport department; \$2.5 millions for the R.C.M.P.; and so forth.

If you total these items and add them to the normal expenditures—placed at \$1,800 millions per year—the total is estimated at \$2,220 millions in the future will stand at approximately \$2,220 millions.

Imperial Conferences Are Outmoded

The New Empire

Intra-Commonwealth Deliberations of the Future Will Consist of Continuous Consultation of Which the Present London Meeting Is One Phase

By B. T. Richardson

London Bureau of The Edmonton Bulletin

LONDON: Consultations and peace treaties and settlement of Europe, and a variety of general political problems, which are authorized by law and which ordinarily do not come under the scrutiny of parliament. The interest on the public debt, which is now nearing and will soon pass \$500 millions per year, must be paid.

Children's allowances are statutory and the only way a reduction could be made would be by an amendment to the act. Old age pensions are statutory and the proposed increase will be by legislation, thus removing this item from the economy one. War pensions will be another such item.

Subsidies to the provinces, subsidies for lower freight rates and so forth—the outstanding fact about the war is that the money will be spent, so to speak, automatically.

Alberta District News Briefs

Farm Workers Scarce,
Wives Asked to Help

ROCKY MOUNTAIN HOUSE.—About fifteen percent of seeding is completed, which is very early for this district and farmers report very good conditions. Last year, seeding was just one month later than this spring.

Wheat acreage is increased ten percent, most of it on cleared land, and other grains show about 15 percent increase. Trees are in leaf, a full month earlier than average years, and there is green grass for feed, which is a welcome sight to the stockmen as feed has been very scarce. Farm help is scarce, wives and daughters are being pressed into service, driving power machinery.

Egg Shipment

LLOYDMINSTER.—The first carload of export eggs to be shipped from Lloydminster direct to the seaboard at Montreal for shipment to England, left the city on Monday, May 1. The carload, which contained 18,340 dozen eggs, all stamped "Canada," was made up by the Lloydminster branch of the Saskatchewan Co-operative Creameries Limited and the Lloydminster office of Edmonton Produce.

Boer Veteran Dies

LLOYDMINSTER.—Veteran of the Boer War, Thomas Leach, who came to Canada in 1920 has made his home in the Greenwood district, died recently. Born at Wargrave, Berkshire, England, he enlisted with the Dorset Regiment for service during the South African campaign and was sent to India where he was stationed for almost four years. Transferred to the Reserve after seven years service, he came to Canada in 1908.

Dies at Rocky

ROCKY MOUNTAIN HOUSE.—A veteran of the first World War, Arthur Leech, Patterson Gibson, died suddenly of a heart attack. He was 70 years old. Mr. Gibson, born at Stella, Ont., graduated from Queen's University, joined the 191st Battalion in 1915 and served to the end of the war. He came to Rocky Mountain House in 1919 and in 1920 married Margaret Ann Williams, who died in 1934. He is survived by a daughter and three sons.

Theatre Sold

ROCKY MOUNTAIN HOUSE.—The Rocky theatre was sold this week by Russell S. Murray to George Hunchak and Michael Thro, both of Redwater, Mr. Murray.

Vermilion River

Agreement Near

Troubled affairs of the municipal district of Vermilion River, which have been placed in the hands of Administrator Sidney Lea since the dismissal of the municipal council last fall over its failure to reach decision in regard to location of offices for the district, are well on their way to a solution, according to Hon. C. E. Gerhart, minister of municipal affairs, Thursday.

PLANS HAVE BEEN drawn up for the revision of the district into new electoral areas, with an effort made to give the electors the best representation possible in the new council, and still to do away with the deadlock which shortened the life of the previous body.

These plans are to be submitted to the administrator, who is now thoroughly acquainted with local problems, and who will make a selection of the most practicable of them. When this is done and the choice approved by the department.

STOPPED.—Dressed in Canadian Army battledress, Mrs. Pauline Ann Clarke, 20, was caught on the gangplank of the liner Le France as she attempted to stand away so she could sail for Canada with her soldier husband. The soldier, Sgt. Anthony H. Clarke, RECMC, is seen at her sister's London home after their unsuccessful attempt.

City Dentists Kept
Busy by Veterans

City dentists are at present swamped with veterans awaiting dental treatment, according to a statement issued by J. J. Proctor, district administrator, department of veterans' affairs. Figures show 10,750 veterans awaiting treatment at present, with 3,000 having already completed their treatment.

MR. PROCTOR stated that the biggest problem is in the north country where there are no dentists. To overcome this obstacle, three mobile army dental clinics, under contract to service DVA patients, will make a trip through the northern area during June. The clinic will tour through the Peace River block.

These mobile laboratories are equipped to make false teeth as well as pull and fill teeth. Mr. Proctor pointed out that this is the first dentistry in Canada to be done in the north country. He said, "The project is being watched with great interest at Ottawa."

Pensioners Meet

The Alberta Pensioners' Society, Inc., will hold a public meeting in the ICOP hall, 103 street, on Monday next at 8 p.m. Stanley Ross will be the speaker, his subject being "Social Security." Community singing and general entertainment will be features of the meeting.

School Program

To Be Reviewed

A review of the curriculum of Alberta schools will be undertaken by the general curriculum committee of the department of education at a meeting on May 30, according to Dr. W. H. Swift, deputy minister of education.

These meetings are held semi-annually and organizations may wish to do so are invited to submit their recommendations to the director of curriculum, department of education before the date of the meeting.

In addition to those on the committee who are regular employees of the department, there are representatives of the Alberta Teachers' Association, the Alberta Trustees' Association, the Home and School Association, the University of Alberta and other bodies.

On municipal affairs, an election will be held in the district and the affairs of the taxpayer returned to local hands.

Effects of Soil
Erosion Serious

Effects of soil erosion due to high winds are assuming serious proportions, according to O. S. Longman, deputy minister of agriculture, who returned Wednesday from a trip which took him to Calgary and Brooks.

Farmers are being urged to such precautionary measures as strip farming and tree planting to offset the effects of erosion, now appearing in such devastating fashion in their fields.

THE DEPUTY MINISTER inspected the Old School of Agriculture on his way to the south and spent considerable time in the horticultural station at Brooks, where extensive experiments are being carried out in the growing of fruits.

It is indicated as a result of these tests that the growing of fruits in the south of the province may soon become a reality, the deputy minister said, and told of seeing a test plot of more than 1,000 named varieties of apples and crab apples.

Last year for the first time in the history of the province, a rich harvest of apricots was gleaned from trees at the Brooks test farm.

Experiments on growing of peaches indicated great promise for this type of fruit-growing in the south of the province, Mr. Longman said.

Appointments Made
To Library Board

Investigation of the provision of public libraries throughout the province under the terms of the Cultural Development Act, and the administration, with the co-operation of local authorities who operate such libraries, will be the duties of the Alberta Library Board, appointment of which was announced Thursday.

THE BOARD is made up of five members, two of them appointed for three years and the others for two years. W. R. Castelli, Calgary librarian, and Hugh C. Gourlay, head of the Edmonton Public Library, have been appointed for three years.

Members of the board for two years will be A. Calhoun, retired librarian, Calgary; Marjorie Sherlock, University of Alberta librarian, and J. Ferguson, Grande Prairie.

Bank Clearings

Bank clearings through the Edmonton Clearing House for the week ending May 1, 1946, were \$12,717,554.21 as against \$9,383,592.26 for the corresponding period of last year.

Plan to Discuss
Hours of Work

Agreement on hours of work for beer room employees when the hours of sale are extended on June 1 in accordance with the announcement made by J. A. King, chairman of the Alberta Liquor Control Board on Wednesday is expected as the outcome of a meeting to be held in the office of the Hon. C. E. Gerhart, minister of trade and industry on May 15.

The new hours for the sale of beer in beer parlors will be from 10 a.m. to 10 p.m. An agreement will have to be reached between employers and employees before the change could be brought into effect.

The meeting on May 15 is called for that purpose and will be attended by representatives of the Hotelmen's Association, the beverage room dispensers and the chairman of the liquor control board.

Council of CGIT

Holds Final Meet
The CGIT girls' council held its last meeting of the current term at Central United Church on Wednesday. Among items discussed was the "Day Camp," a city wide gathering of CGIT girls held to elect a council for the new term. It was announced that Mrs. Clara Shalen, the elected president would receive a clerk scholarship to Kaslo.

To conclude the meeting Miss Doris Halberg, assistant secretary of the YWCA, gave a talk on "Personality." A sing-song was led by Miss Clara Shalen. The devotional service was conducted by Mary Lou Dixon.

The Bulletin's SPORTS SHOW by Hal Dean

SPORTS EDITOR

ANNOUNCEMENT Thursday by Connie Smythe that pro basketball would be a regular feature in Maple Leaf Gardens next season is still further evidence of the progress the cage game is making as a big time sport attraction.

This year the Big Ten Conference led all other college circuits with a paid customer attendance of 464,969, or more than double the 203,317 drawn by its closest rival the Pacific Coast league. All told, four million fans paid their way into college cage games.

A TOTAL of 380,365 attended the 21 college games in Madison Square Gardens in New York this season, or an average of 18,112. Chicago's stadium ranked next with 164,143 for 12 seasons, or an average of 13,678.

No other school could match the 12,000 who saw Iowa home games, or the 108,200 who Wisconsin attracted. Washington drew 65,580. Baskettball likely will top the sports field for attendance at the United States arena this year.

VERN MOHS is club captain at the Highlands Golf club this season and his first effort for the year—the draw for the president versus vice-president competition which officially starts the club activities—ended just as he was to go. Alex. Olynik is the 1946 pro at the Highlands and E. E. (Pete) Hood is secretary-treasurer. Gerry Rice is president and Harold Burden vice-president and current indications are for the biggest year in the history of the club.

ALABAMA STATE Baseball League appears to be in the front to date in the race for mass production in a single game, as the Brewster Millers coming from behind the other day to defeat Ozark 9-2.

The contest lasted only four hours and 15 minutes and the winners had to score three times in the ninth to claim the victory. Ten pitchers were used and they walked 40 batters, made six wild pitches, hit four batters and gave up 35 hits, including seven doubles and a pair of triples. The Brewster Millers lead in batting with five and in stolen bases, 7. DiMaggio of Boston Red Sox is showing the way to the pack for batting in the American with 405, and his team-mate Williams has most runs, 17. Doerr, of the same team, has 12. DiMaggio, New York, and Chapman of Philadelphia have four home runs.

Only Six Horses Saved

Turf's Most Costly Fire

Is Now Being Investigated

By JERRY LISKA

CHICAGO, May 3.—(AP)—The costliest fire in turf history, a "flash blaze" which destroyed 23 young thoroughbreds valued at \$500,000, rocked the Maine Chance Farm of Mrs. Elizabeth Graham Thursday afternoon.

Six racers, including Beaugay, leading two-year-old filly of 1945, were that charged when the barn at Arlington Park race track, at nearby Arlington Heights, early yesterday.

W. A. Hewitt of Toronto, treasurer and registrar, submitted his annual report. The financial report for the year ending last June showed total income of \$45,691.72 and total expenditures of \$42,309.58. Of the total income \$44,683.32 was from the junior playoffs last year.

Speculation regarding future discussions on what the delegates might decide on future status of two top-ranking senior leagues—Quebec and Western Canada leagues—and what regulations might be adopted for international travels by players.

Expenses in 1945 included \$14,299.38 for general administration, \$14,700.00 in grants to the branches for the advancement of minor hockey, \$1,000.00 bonus to finalists, which is \$500 to each of the four teams in the national junior and senior finals.

THE CAHA ALSO purchased \$5,000 in Dominion of Canada bonds and placed \$1,000 dollars in the \$3,382.96 on the year's operation was shown.

THE CAHA trust fund now totals \$56,354.14, most of which is in Dominion of Canada bonds.

Toronto Entering Pro Basketball

TORONTO, May 3.—(CP)—Conn Smythe, managing director of Maple Leaf Gardens here, announced Thursday that major professional basketball will be played at the Gardens next winter.

A group of Ontario sportsmen are backing a Toronto entry in the newly organized United States National Basketball League, he said.

Other losses included Queensway, Chance Mascot, Soft Answer, Rosario, War Comet, Big Sam, Sunny, Blue, Slim Jim, Gay Bean, Pink Palm, Palm, Sun, Pink Rose, White Lane, Blue Angel, Super Lassie, The Bat and Sugar Lea. With exception of the Super Lassie, all the other horses were two-year-olds.

THE CAHA trust fund now totals \$56,354.14, most of which is in Dominion of Canada bonds.

CHANCE ENTRY DERBY FAVORITES

By HARRY GRAYSON

LOUISVILLE, May 3.—The 72nd running of the Kentucky Derby at Churchill Downs on Saturday looks like a lock, as the boys say, for fabulous Maine Chance Farm.

I rather expect Mrs. Elizabeth Graham's entry to run one-two—Lord Boswell and Knockdown.

In the order named, I won't make a bit of difference to the player, so chuck it in, even though the price is high, and the short side.

Back of the entry, my guess is Assault, King Ranch's game little thing with the deformed right front foot which makes the rest of Bold Venture walk with such an unusual gait that early in the two-year-old year, Max Hirsch suspected he wouldn't stand training.

Back of the first three I would rate them in this order: Pellicle, Spy Song, Wee Admiral.

Ing because of his first place at Alworth, Almond and With Pleasure.

I doubt that more than a dozen will go.

Louisville is packed with people with the Blue Grass Stakes in the way to French Lick, Lexington and Cincinnati.

Back of the first three I would rate them in this order: Pellicle, Spy Song, Wee Admiral.

Ing because of his first place at Alworth, Almond and With Pleasure.

I doubt that more than a dozen will go.

Louisville is packed with people with the Blue Grass Stakes in the way to French Lick, Lexington and Cincinnati.

Back of the first three I would rate them in this order: Pellicle, Spy Song, Wee Admiral.

Ing because of his first place at Alworth, Almond and With Pleasure.

I doubt that more than a dozen will go.

Louisville is packed with people with the Blue Grass Stakes in the way to French Lick, Lexington and Cincinnati.

Leadership Needed

Canada to Play Top Role In Europe's Hockey Program

VANCOUVER, May 3.—(CP)—It is evident from discussions at the annual conventions of the International Ice Hockey and Canadian Amateur Hockey associations meeting here that Canada, home of the world's top hockey talent, is destined to play the leading part in growing development of the game.

Walter Brown of Boston, secretary of the American Amateur Hockey Association, who recently returned from a trip to Europe, expressed belief at the opening session of the IHA meeting yesterday that the continent needs leadership in hockey development. He felt that the C.A.H.A. is the body to provide that leadership through the IHA.

HE SAID HE DID NOT think much of the hockey setup in England. There are three big rinks, Wembley, Harringay and Earls Court, he said, with the first two controlled by Greyhound racing interests. Mr. Brown felt they were directly interested in hockey.

He added that the Scottish Amateur Association was considering breaking away from the British association.

To attempt to stir up hockey in the United States, Tom Lockhart of New York, president of the A. H. A., said he intends to send a man around the country with moving pictures of N.H.L. games.

A COACHING SCHOOL will be held in New York under the direction of Frank Boucher of the New York Rangers.

Evidence that Canada's hockey supremacy would not be threatened for some time to come was shown by George Hardy of Edmonton, president of the I. L. H. A.

He told of receiving three letters from Russia and some pictures. They use old style field hockey sticks and rubber balls for a puck, he said. We don't expect any com-

Highlands Golf Opens Sunday

Official opening of the Highlands Golf club takes place next Sunday with the annual president versus vice-president match as the main attraction.

Three hundred will compete in the first event of the year in which President Gerry Rice and Burns Martell will tee off at 8 a.m. Sunday against Vice-President Harold Burden and Henry Martell.

Following is the draw, the two players first-named in each case belonging to the president's team:

- 8:00—G. Rice and B. Martell vs. H. Burden and H. Martell
- 8:05—D. G. Adams and E. H. Wells vs. S. Agnew and Bill Webster
- 8:10—D. Allen and V. L. Webb vs. H. T. Anderson and H. T. Wootton
- 8:15—C. A. Anderson and A. T. Williamson vs. H. Ayling and T. T. Wilde
- 8:20—T. Baird and J. Wainshaw vs. H. Banks and C. T. Walker
- 8:25—W. Barnhouse and W. D. Wasmuth vs. F. H. Beattie and R. J. Wallace
- 8:30—A. Beattie and H. L. Wolfe vs. R. Bewley and E. E. Wood
- 8:35—F. R. Blythe and G. D. Wilson vs. H. E. Bliss and E. H. Wilson
- 8:40—J. Bill and J. R. White vs. C. W. Brown and D. W. Williams
- 8:45—J. W. Brown and J. Cranewick vs. R. Bullock and J. Verchom
- 8:50—E. Best and F. Vintner vs. T. Barker and W. Trischuk
- 8:55—E. F. Marshall and H. Martell vs. W. M. Maitson and E. Martell
- 9:00—G. Marshall and A. M. Maitson vs. G. Marshall and A. M. Maitson

British-American Golf Tilt Planned

MONTREAL, May 3.—(CP)—Neutral ground for a British-American golf showdown, plus cash prizes totalling \$2,000 and all expenses for a four-man British team, were offered here Thursday by the Beaconsfield Golf Club of Montreal.

A cablegram addressed to Commander H. C. T. Roe, chairman of the British Professional Golfers' Association, was sent Thursday by the local club, offering money awards and a return trip by air to Europe for a four-man British team, offered here Thursday by the Beaconsfield Golf Club of Montreal.

Beaconsfield club officials said a request, if received, from the Canadian P.G.A. to enter a team in the proposed international match would not be turned down, in which case the P.G.A. would be asked to offer suggestions on how a three-way match could be played off.

Canadians Hold Practice Tonight

Canadian Athletic Club junior baseball team will hold a practice at Clarke Stadium (east side) tonight starting at 6:30 o'clock. All players wishing to try out for places on the team are welcome.

Cricket Workout

The Radial Cricket Club will hold a practice on Sunday, May 3, at 10:30 p.m. All those interested are asked to be present at the pitch on the Municipal Golf course.

Baseball Guild Plans Big Things

WASHINGTON, May 3.—(AP)—Robert Murphy, director of the newly organized American Baseball Guild, Thursday outlined some of the things which the guild hoped to accomplish.

Among these is the establishment of a minimum salary of \$7,500 a year for major league players.

Baseball men have estimated that the average pay of rookies now coming into the big leagues is about \$4,500 a year, a substantial increase over pre-war salaries.

Other points include:

1. Fifty per cent of purchase price to go to player if he is sold.

2. The ABG stands for peaceful settlement of disputes and will sign a contract with no-strike provisions.

3. Arbitration: If a player and club owner cannot agree on a player's contract or if a player has other grievances, the matter shall be settled by two representatives of the player and two representatives of the club owner. In event they cannot agree, the matter shall be settled by a neutral arbitrator.

4. Greater freedom of contract so that club owners will not be able to deal with players on a one-side basis.

5. Provision for bonuses, insurance and so forth.

6. All officers of the guild are to be professional players or former players.

7. G. B. Leach and A. M. McDonald.

8. J. K. and J. A. Monaghan.

Boston Shades Tigers Dodgers Take First Place By Edging Out Chicago 3-2

NEW YORK, May 3.—(AP)—Brooklyn Dodgers moved into first place in the National League yesterday by edging out Chicago Cubs 3-2 as St. Louis Cardinals lost 5-1 to New York Giants.

In the only other league game, a five-run second inning, sparked by triples by Hank Cammell and Bob Elliott, gave Pittsburgh Pirates an 8-3 victory over Philadelphia Phils.

The Boston Cincinnati game was postponed because of rain.

Dodger veterans, notably infielder Billy Herman and pitcher Art (Red) Herring, collaborated at Chicago to defeat the Cubs.

Appearing as a pinch-hitter in the eighth, Herman singled in veterans Pete Reiser and Dixie Walker to account for the tying and winning runs.

HERRING REPLACED starter Kirby Hines in the fifth and allowed only four hits and no runs in 4 2/3 innings.

Giants started an end Nemesis, Harry (The Cat) Brecheen, off his own St. Louis field in the ninth inning by putting up a four-run barrage on singles by Sid Gordon, Buddy Kerr, Bill Rigney and Johnny Mize and two Redbird errors. It was the first time the New Yorkers beat Brecheen since he entered the league in 1943.

In the American League, Red Sox ailing Ted Williams, fighting off a sinus attack, smacked a 10th-inning homer to give Boston a 3-4 victory over Detroit Tigers.

New York Yankees trounced Cleveland 8-2 and St. Louis Browns overwhelmed Philadelphia Athletics 10-3.

WILLIAMS Had flied out three times.

Baseball Guild Plans Big Things

WASHINGTON, May 3.—(AP)—Robert Murphy, director of the newly organized American Baseball Guild, Thursday outlined some of the things which the guild hoped to accomplish.

Among these is the establishment of a minimum salary of \$7,500 a year for major league players.

Baseball men have estimated that the average pay of rookies now coming into the big leagues is about \$4,500 a year, a substantial increase over pre-war salaries.

Other points include:

1. Fifty per cent of purchase price to go to player if he is sold.

2. The ABG stands for peaceful settlement of disputes and will sign a contract with no-strike provisions.

3. Arbitration: If a player and club owner cannot agree on a player's contract or if a player has other grievances, the matter shall be settled by two representatives of the player and two representatives of the club owner. In event they cannot agree, the matter shall be settled by a neutral arbitrator.

4. Greater freedom of contract so that club owners will not be able to deal with players on a one-side basis.

5. Provision for bonuses, insurance and so forth.

6. All officers of the guild are to be professional players or former players.

7. G. B. Leach and A. M. McDonald.

Doctors' Studies Reveal:

Men of Muskox Expedition Gained Weight on Long Trek

Members of the Muskox expedition were in apparently better physical condition when they arrived at Fort Nelson than when they started out on the long, difficult snowmobile drive of nearly 3,000 miles at Churchill, physicians of a special medical board attached to the force declared on arrival in Edmonton Thursday.

DOCTORS R. E. Johnson and A. Taylor, both of the fatigue observation laboratories at Harvard University, Boston, told newsmen who visited them at the Macdonald hotel that probably never before has an expedition of the kind covered so much territory under Arctic weather conditions in so short a period, with such complete freedom from sickness of any kind.

The United States medical men said they wished to make it clear that Muskox was an all-Canadian show and they were invited to assist by the director general of medical services for the RCAMC and the Canadian minister of national defence.

With Canadian army medical men who accompanied the expedition, the Harvard men will submit a comprehensive report to army medical headquarters at Ottawa and details of the expedition will not be available to the general public until the report has been studied.

Dr. Taylor is a former resident of Saskatchewan and a graduate of the University of Saskatchewan. He planned to pay his first visit to Saskatchewan in 22 years on his way back to Boston. He has been on the staff of Harvard University for 18 years.

Vets' Counsellors Will Visit Towns

Three Northern Alberta towns will receive their first visit by a travelling counsellor from the department of veterans' affairs, according to a schedule released Thursday from the DVA here. The itinerary is as follows: Sanguito May 4; Mayerthorpe, May 5; Whitecourt, May 8. The trip will be made by automobile and stops will be made at the local hotels.

Banff Art School Gains Popularity

From foundations laid 13 years ago in the opening of the Banff School of Fine Arts, a distinctive Canadian culture in all branches of art may equate the traditions of such historic schools as Oxford and Cambridge within a century or so, it was predicted Thursday by Donald Cameron, in an address to the Rotary club.

The director of the department of extension of the University of Alberta declared that the Banff school was one of the coming major activities of the extension department, and that it had already established itself as a Canadian institution.

This year's applicants for the five weeks' course from July 17 to August 24 included students from as far away as Athens, Greece, with several from the United States and South America.

Termining Banff "the coming Salubrious of America," Mr. Cameron said that in its 13 years more than 4,000 students from all over America and Canada had received training in arts and crafts.

He pointed to an interest in the school which extended internationally in the recent donation of scholarships by the government of France following the addition of a summer school class in oral French.

GREAT ASSISTANCE in speeding the development of drama throughout wide areas of small communities had been effected through an endowment of \$10,000 by the Andrew Carnegie Foundation.

He said that never before had actors and actresses of small communities been given such a liberal opportunity to compete with players in larger centres, and that many had shown gifted talent and had risen to heights in annual drama competitions.

Accommodation in Banff is as much of a problem as elsewhere, said Mr. Cameron, and it looked as if it would be necessary this year to decline a number of applications on this account, he hoped, however, that within five years the Banff school would be capable of accommodating 1,000 students.

"When that time comes, the course will not be for five weeks but will operate throughout the year," he said.

HE PAID TRIBUTE to the Banff school board and to the late Sir Edward Beatty and the CPT for contributions that had built the \$75,000 Banff auditorium.

The speaker was introduced and thanked by J. P. Sackville who was chairman of the day. In the chair was Gordon Henry, Rotary president.

Gov't. Establishes New Game Reserve

Large areas in six townships near Frog Lake, known as Area No. 16, fishing Lake-Elizabeth, have been set aside as a reserve according to an official announcement made Thursday by Hon. N. E. Tanner, minister of lands and mines, under provisions of the Metis Population Betterment Act.

The announcement states that the area listed, which covers about 100 square miles "shall be set aside as a reserved area for the rehabilitation of game, fish and fur-bearing animals."

It more specifically prohibits the hunting or trapping of muskrat in the district from April 16 to Dec. 31, 1946, and provides penalties for anyone found hunting or trapping during that period.

Transfer Act

Administration of the Alberta Government's Insurance Act has been transferred from under the jurisdiction of the provincial secretary to that of the department of economic affairs, according to a government announcement made on Thursday. Hon. A. J. Hooke is minister in both departments.

wood (Rocky Island) lake, Sieber lake, Touchwood lake and White fish lake. The season for a large portion of Lesser Slave lake opens June 1.

Trucker Blameless In Death of Girl

Howard Keeler, 12326 125 street, driver of the truck which knocked down and killed 15-year-old Marion Mall at the intersection of 109 street and 105 avenue on April 23, was cleared of all blame in connection with the accident by a six man coroner's jury at an inquest held at city police court Thursday afternoon.

MAIN WITNESS at the inquest of 14-year-old Anne Kolson, 10807 109 street, who was walking with Marion at the time of the accident, Miss Kolson told the jury that Marion was going to the school for supper at the time of the accident and that the two were walking north from the 109 street subway at the time.

"We were talking as we walked along and I didn't see the truck or hear the horn before we were hit," she stated. Miss Kolson also was struck by the truck, but was thrown clear and escaped with only minor bruises and shock.

Orvis Kennedy, 9542 142 street, who witnessed the accident, stated that the two girls were on the curb as the big truck swung around the corner and that they appeared neither to hear nor see it, but apparently walked right into the vehicle.

FOUR PHOTOGRAPHS of the scene of the accident, and one of the truck, taken by Det. Ken Murray of the city police force, were entered as exhibits, together with a plan of the scene of the accident and an autopsy report.

Witnesses stated that the truck driver sounded his horn just as he rounded the corner and that he was travelling at a speed of between 8 and 10 miles per hour.

The verdict returned by the jury stated the girl came to her death "as a result of injuries received by being struck by a truck driven by Howard Keeler, of 12326 125 street, Edmonton."

"We the jury believe that this was purely accidental and no blame can be attached to the driver of the truck as mentioned."

Cause of death was given as multiple fractures of the skull and medical evidence presented by Dr. C. A. Ross, assistant pathologist at the Royal Alexandra hospital, showed that the girl suffered extensive fractures and internal injuries.

Dr. E. A. Braithwaite, chief provincial coroner, presided over the inquest.

JURYMEN were: William Hogg, foreman, 10208 97 street; L. F. Macdonald, 11206 102 street; James Edgar, 10729 109 street; Alex Brown, 11539 95 street; R. J. Talbot, 9631 Jasper avenue; E. Armstrong, 9522 108 avenue.

Witnesses called included Anne Kolson, Howard Keeler, Orvis Kennedy, K. Hill, Alberta Hicks, Nell Hironde, 10357 101 street; Nor. V. J. D. McCatcheon, Royal Alexandra hospital; Dr. C. A. Ross, city engineer; Constable F. E. Sloane and Det. K. Murray, city police force.

Elevator Repairs Are Said Urgent

Urgent need for repair work to be carried out on county elevators is given as the reason for the suspension of the provincial regulations relating to work of work, according to government announcement on Thursday.

It is pointed out that the repairs of these facilities has been prejudiced during the war by shortage of materials and labor and as the season in which such repair crews may do their work is limited, it is essential that the necessary repair work be carried out as rapidly as possible.

Elevator repair crews in the employ of the United Grain Growers (the Alberta Wheat Pool) and elevator lines under the Non-War Line Elevators' Association are exempt from the restrictions of the Hours of Work Act until Oct. 1, 1946.

This regulation will be reviewed annually.

Spirit River Woman Flying to U.K.

Enjoys Air Travel at 74

Mrs. M. J. Crawshaw of Spirit River has passed her 74th birthday but she's as modern as they come in this breath-taking age of speed.

MRS. CRAWSHAW arrived in Edmonton early Thursday on a CP Air Lines plane from Grande Prairie on the first lap of an aerial journey to Britain and it is scheduled to maintain the schedule in Prestwick, Scotland late Saturday or early Sunday.

It is the first time that the plucky lady has ever been in an airplane, but according to her daughter-in-law, Mrs. Tom Crawshaw, who accompanied her to Edmonton, the senior passenger thought "there was nothing to it."

THE JOURNEY from Edmonton will be made by TCA to Leithbridge and Montreal and thence across the Atlantic.

The flight over the Atlantic takes from 12 to 14 hours.

The elderly Mrs. Crawshaw will complete the long flight from Edmonton without any travelling companion.

Arrangements have been made with the Dominion feed administration and Alberta and British Columbia, but reports up to the present indicate that very little use has been made of the available supply.

THE DEPUTY MINISTER appealed to Alberta farmers to use a "substantial portion, if not all of this feed now in store."

"There never was a time in Canadian history when those who till the soil in Canada, and particularly in Alberta, had so great an opportunity to relieve world suffering and hunger," he urged.

"There can be no peace where there is hunger," he emphasized. "It is, therefore, the duty of every farmer, every custodian of the soil and others to exert their maximum effort for greater feed production. Loans and cash donations for the hungry are useless unless there is food to buy."

Mr. Longman concluded, "therefore, Alberta must grow more wheat, milk more cows and feed more chickens."

Use Feed Grains, Farmers Are Urged

Disappointment That Alberta Farmers Are Not Taking Proper Advantage of 2,000,000 Bushels of Coarse Grains Stored for Feed in Edmonton and Calgary Terminal Elevators was expressed by the deputy minister of agriculture, O. S. Longman Thursday.

Arrangements have been made with the Dominion feed administration and Alberta and British Columbia, but reports up to the present indicate that very little use has been made of the available supply.

THE DEPUTY MINISTER appealed to Alberta farmers to use a "substantial portion, if not all of this feed now in store."

"There never was a time in Canadian history when those who till the soil in Canada, and particularly in Alberta, had so great an opportunity to relieve world suffering and hunger," he urged.

"There can be no peace where there is hunger," he emphasized. "It is, therefore, the duty of every farmer, every custodian of the soil and others to exert their maximum effort for greater feed production. Loans and cash donations for the hungry are useless unless there is food to buy."

Mr. Longman concluded, "therefore, Alberta must grow more wheat, milk more cows and feed more chickens."

Nominations for the office of trustee will close Tuesday, May 7, at 5 p.m., and elections will be held where necessary on May 23.

There are five sub-divisions in the enlarged district, one of them made up of individual school districts which have been withdrawn from Slave Lake School Division and transferred to the McLennan division.

Lennan, was appointed official trustee.

Order Vote Taken In School Division

Election of a school board for the enlarged school division of McLennan will take place Saturday, May 25, according to an announcement Thursday by Hon. R. Earl Ansley, minister of education. The new school division was formed in November, 1940, and E. C. Stiche, in, superintendent of schools, McLennan.

The ROAD AHEAD

By HARPER PROWSE, M.L.A.

I AM convinced that the authorities in Ottawa, together with most Canadians here in Canada, fail to appreciate the seriousness of the problem posed to ex-servicemen by the slowness and inequalities evident in the repatriation of the widows of servicemen from the British Isles and the continent.

MOST PEOPLE, including the authorities, take the stand that it is merely a question of separation, and as many of our servicemen were separated from their wives and families in Canada for as much as six years, it does not impose any particular hardship on those who arrived overseas to be separated for a matter of months now.

However, the problem is not merely one of sentiment and separation. It is not just a question of loneliness or inconvience. It is a matter of rehabilitation. And the fact of the matter is that men who have been returned to Canada and discharged just cannot get on with the business of rehabilitating themselves until their wives have come out and joined them. This should be perfectly obvious to any married man or woman.

I HAVE NO DOUBT but that the repatriation authorities are sincerely trying to cope with the

Parents Assessed In Juvenile Court

Parents of delinquent children brought before the juvenile court in Edmonton were assessed fines totalling \$406 during March according to an announcement made at a meeting of the Child Welfare Board on Friday.

In every case of juvenile delinquency in which the parents can be held responsible for the waywardness of their children, fines are being imposed and will continue to be imposed on the parents, it was stated.

Responsibility for the conduct of children remains in parental hands until the youngsters reach the age of eighteen, even though they may have left home and be making their own living before that time.

In February, 15 cases of juvenile delinquency had been tried, six other cases had been settled without reference to the court and two neglected children were taken care of.

Nineteen cases came before the juvenile court in March, of which nine were settled out of court, four neglected children appeared and two adults were charged with contributing to the delinquency of juveniles.

Eight cases in April were settled out of the court, 23 other youngsters were dealt with as delinquents and two more neglected children received attention.

The Inquiring Reporter

THE QUESTION
Do you think the all-important Dominion provincial conference will break down completely or will the negotiations be continued to a final solution?

THE ANSWERS
FRED C. ARMOR, clerk: Every conference produces its share of fireworks with threats to "walk out" and so on. I don't think citizens should worry too much. An agreement will be reached finally in my opinion.

M. SALTE, salesman: The situation does look pretty grim at the moment and Canadians have a right to be concerned. Dominion-provincial settlement is absolutely necessary to speedily completion of reconstruction. I'm still hoping an agreement will be reached.

E. WILSON, storekeeper: I think the delegates to the conference will finally get down to some straight thinking and reach an agreement.

TWO-WAR VETERAN VISITS CITY: Shown above are Maj. and Mrs. William Morris Jones of Toronto. The former is in the city on a cross-Canada tour giving talks on his recent experiences with the guerilla forces in Yugoslavia. He is staying with his brother, Douglas Jones, of 10330 117 street.

City Visitor Says:

Yugoslavia Wants Independence

There is no Russian influence in Yugoslavia—none whatsoever—Yugoslavia only wants her independence. This point was emphasized by Maj. William Morris Jones, DCM, who also won a Bar to the decoration and twice was mentioned in dispatches. He also was awarded the Yugoslavian Order of Merit last Class. He made his statement when interviewed on Friday morning.

HE SERVED for one year with the resistance movement in Yugoslavia and stated that the Russians have no interest in Yugoslavia and never had a mission in that country until December 1943. The Yugoslavians have a deep-seated love for the British way of life, he said.

He parachuted into Yugoslavia in May 1943 and he spoke highly of the Yugoslavian people and the co-operation that exists between them, especially during the years of their struggle. Yugoslavians had no prejudice nor intolerance regarding race or religion. They were honest and a man's word was his bond. They wanted no privileges that others in their country could not have.

HE WAS AMAZED to hear of religious persecution in Yugoslavia and stated that it was not true. Some of the priests were being punished for collaboration with the enemy and some were making use of this claim that it was religious persecution.

As for the women in the country he said that they insisted on going everywhere with the men and sharing the same dangers, and wanted no help nor comfort in their hard times. "In fact they would not accept it," he said.

PRIOR TO LEAVING the country in June 1944 Major Jones said he had the pleasure of staying with

5-Year-Old Boy Injured by Auto
A 5-year-old boy, David Olson, 10332 79A street, suffered facial lacerations and head injuries when he was knocked down by a car near his home about 4:30 p.m. Thursday. Driver of the vehicle is alleged to have been Francis Friel of Ardrossan.

The child is said to have run into the street directly into the path of the auto. He was rushed to the University Hospital by ambulance by Churchill, principal of the nearby Forest Heights school.

Hospital authorities reported Friday morning that David's condition was good.

DOROTHY DIX SAYS—

Vets Find It Difficult To Understand Mates

One of the By-Products of the War Is the Problem Wife and She Is a New Species Whose Ways and Habits Are Strange

One of the by-products of the war is the problem wife, and she is a new species of fauna whose ways and habits are strange to her former husband. The war has changed her, and she is no longer the same person who married him. She is a new species, and he must learn to understand her. The war has changed her, and she is no longer the same person who married him. She is a new species, and he must learn to understand her.

AND that is the surprise, that many a girl is acting when he returns home from the war, and it is shocking him, already. He can't understand what has happened to the woman who has been his mate. He can't understand what has happened to the woman who has been his mate. He can't understand what has happened to the woman who has been his mate.

Of course, in many cases this is true. There are many women who are acting strange when they return home from the war. They are not the same women who married them. They are new species, and they must be understood.

There is a problem that I think you will enjoy. You can find it any way you want to, just bearing in mind that South plays the queen at six spades.

The opening lead is won in dummy with the king of spades, and South must play his queen on the king. He must now lead the queen of hearts, and when East covers with the king, South must play with the ace of spades. He goes over to

Not this. This.

Help a handicapped child learn to adjust to the sort of environment in which he will probably spend his life.

For Goodness sake—Try Red Rose!

RED ROSE TEA

"is good tea"

By JOSEPHINE LOWMAN—

Why Grow Old?

The advice of a competent doctor, such as that being obtained by Actress Pat White, is important to treatment with hormones—in fact, it's important whether you need any treatment or not.

Q. "I ENJOY your column and wish you would answer this question in the question box. This is my problem. My hips and waist are too large and my arms and legs are too fat. What would you suggest?"

A. Exercise. For building up the muscles of the legs, take this 30-second exercise. Lie on your back, knees bent, feet flat on the floor. Lift your hips up, hold for 30 seconds, then lower them. Repeat three times.

Q. "I HAVE HEARD that massage increases the bust measurement. Is this true?"

A. I do not know exactly how much it helps. The only way we know we can build up the bust is through exercising and developing the chest muscles. With my hand developing routine, I give exercise and gentle massage with melted cocoa butter. It may be that the heat and massage help, but any extra milk you get results from the whole routine.

Q. "Please tell me the correct exercise to take after having a baby."

A. Your abdominal muscles will need reconditioning. This is a good one: Lie on the floor on your back. Bend both knees up to the chest, stretch the legs, bringing the heels close to the floor. Do not touch the floor unless you have to. Continue bending and stretching. If you wish to have my exercise routine for new mothers, I will send it to you.

Q. "I AM A HIGH school girl. Please comment on my measurements. Bust 22, waist 22, hips 34 1/2."

A. You are in good shape, my girl, but you had better watch the hips. What is cosmetic wax? A. It is the wax used in removing fine superficial hair.

Q. "I don't like to use cosmetic wax. I have heard they cause cancer."

A. IT CERTAINLY would be dangerous to take them without a doctor's advice and supervision. However, they are administered with great safety under these circumstances.

Released by The Register and Tribune Syndicate, Inc.

Your Baby And Mine

By MYRTLE MEYER-LEWIS

There is ONLY ONE sure way of developing in the child a sense of ownership and that is by giving him possession of his own and being respectful of them.

RIGHT NOW, when home parents are planning, narrowing and festering the ground that is to be their child's, it is the time to make some small, practical, sure steps.

THE TROUBLE HE TAKES, the excitement he feels at seeing the first green sprouts making their way out of the mellow ground, will prevent him from being one of those children who walk flat-footed through the tender plants and lay them low under careless heels.

It will not be just flowers that you have to care for, but also the seeds, or buds, or a doll's china.

What a variety of articles for your toddler in pattern 4591! All easy sewing. Make the dainty frock and pinafore—no shoulder straps, no either-belt-bow-and-bowties with good hearing.

Pattern 4591: sizes 1, 2, 3, 4, 5. Size 2, pinafore, 18 inches; 1 yd. 35-in; frock, 18 inches; 1 yd. 35-in.

Tractors on Roads Must Carry Lights

Tractors are not to operate on Alberta highways between one hour before sunset and one hour after sunrise unless they are equipped with proper lights, according to new regulations in connection with the Public Service Vehicles Act.

which were announced at the legislative buildings Thursday. T lights to be provided are to two head lamps on the front of a vehicle and a red tail-light at the rear.

THE REGULATIONS order that a tractor on the highway whether in motion or standing shall dim head lights in the same manner prescribed for a car.

Other amendments to the

In the case of tractors used in the hauling of semi-trailer attachments, owners under the new regulations will be required to assign a separate number to each tractor and trailer where these are interchangeable. Each portion to be weighed and its weight clearly marked on it.

IN CASES OF certain infractions of the Public Services Vehicle Act, the owner of the truck

other vehicle is held under the law to be equally responsible with the driver for such infraction. The new regulation adds to the list of such clauses the requirement that flares be carried with each truck. If a truck is found on the highway which does not carry such flares, the owner of the truck is to be held as equally guilty as the driver.

Class "E" certificates for trucks

Such a certificate will cost the owner \$25 but if he returns it within seven days of the expiration date with an affidavit stating

**\$50 in Cash Taken
From City Store**

About \$50 in cash and a large quantity of cigarettes, chewing gum and other merchandise were taken from a city store.

Discovery of the theft was made by Len Pon, 9548 Jasper avenue who heard a noise in the adjoining premises and called police to the scene. There was no evidence the door or windows of the premises having been forced, but the automatic record-playing machine was broken into and about \$50

Detective J. B. Arial and Constable R. E. Hooper investigated the robbery.

IT'S A FABLE

IT'S A FACT

"TIME TESTS MERIT"

One Spring, a climbing vine was planted next to an old and venerable pine. The vine shot up so rapidly it soon overtopped the pine. "Look," exclaimed the pine, "I've grown taller in one summer than you have in a hundred years!" "Yes, that's true," replied the pine, but I have endured the cold and heat for a hundred years! The first time there's a drought or a heavy frost, let's see what will happen to you!"

Time—and weather—test the merits of fabrics, too. Will they fade? Will they shrink? Are they best? In EATON'S Research Bureau, there is a battery of machines for measuring the quality of EATONIA—on EATON'S Own Brand fabric. The Launderometer, testing washability, the Fadeometer, artificial sunlight to check up on fading; the Colorimeter, measuring, and grading subtle tones of colour.

IT'S A FACT - IT PAYS TO BUY EATON'S OWN BRANDS
